

Onboarding Guide for Engineers

Welcome to our team! We're excited to have you with us and look forward to your contributions and growth. This guide will help you get acclimated to our environment, team, and projects.

Welcome Message

Welcome, [Engineer's Name]! We're thrilled to have you join our team. You are now part of a group of talented engineers who are dedicated to innovation and excellence. Please take a moment to review this guide carefully, as it will provide you with the necessary resources and know-how to start your journey with us effectively.

Team Structure

In our team, communication and collaboration are key. Here is the current structure of our engineering team:

- **Engineering Manager:** @EngineeringManager
- **Lead Developers:** @LeadDeveloper1, @LeadDeveloper2
- **Quality Assurance:** @QA_Lead
- **DevOps:** @DevOps_Lead
- **UX/UI Designers:** @UXLead

Feel free to reach out to your team leads with the @mention feature whenever you have questions or need guidance!

Project Overview

You will be starting with the following projects:

- **Project A:** A brief description of what Project A is about.
- **Project B:** A brief description of what Project B is about.

Each project is crucial to our product's success, and you will play a significant role in their development and execution.

Key Resources

Here are some key resources you will need:

- **Code Repository:** Where our projects' code is stored. [Repo Link]
- **Documentation:** [[Documentation Link]]
- **Internal Tools:** [[Tools Link]]
- **HR Portal:** [HR Link]

First Week Agenda

- **Day 1:** General orientation with HR. Set up your workstation and meet your mentor @Mentor.

- **Day 2:** Introduction to our tech stack by @TechLead, walkthrough of ongoing projects.
- **Day 3:** Deep dive into your first project with @ProjectLead.
- **Day 4:** Team meeting to discuss current engineering challenges and your role.
- **Day 5:** End of week review with @EngineeringManager.

Each task in your first week can be tracked using - [] to mark them as tasks:

- ■ Complete HR paperwork.
- ■ Setup your development environment.
- ■ Attend the tech stack presentation.
- ■ Join the engineering team's stand-up.

Mentor Details

Your mentor will be @MentorName. They have been with the company for X years and have a wealth of knowledge about our processes and culture. Your mentor will be your go-to person for any questions you have and will help guide you through your initial period at the company.
